Introduction

Greetings, I am Richard, a 14-year-old boy who is currently studying as a 9th grade student in Hangzhou International School. I have shown interest in biking since 2023, and swimming since 2018, attended over 15 swim meets and won numerous awards, showing my interest and perseverance in sports. As biking is a fairly new hobby of mine, I would like to dive further into biking, and also using this chance to understand how bike shops work and sales.
